

Austin grows up like a weed! Extending up 85 cm from the ground, he can no longer stand or walk with his body straight under a dining table! Active lifestyle, body weight doesn't put forward on scale, but stagnant though he eats like a horse. Everyday, at least 5 meals - breakfast, second breakfast, lunch, afternoon snack (unless he naps over), dinner and supper.

**Weight** = 10.5 kg (10-25th percentile)

**Length Height** = 85 cm (10-25th percentile)

**Head circumference** = who cares? It certainly doubles from his newborn diameter.

**BMI** = 14.5

**No of teeth** = Full set to grind, munch and crunch!!

**Foot length (toe to heel)** = 14 cm

**Shoes size:** Fitting in size 5 toddler (14.0 cm), Austin has just owned the 6th pair of shoes.
